Dr Robert Kagan’s awesome report/testimony showing radiological image change for the benefit of patients with the use of PEOs is most impressive. **There is no doubt of the immense benefit of the Parent Essential Oils PEOs).** Thank you for making surgeons aware that even with the continued use of PEOs, bleeding during and after surgery, remains normal and the recovery is better. Professor Peskin and Dr. Rowen, thanks so much for sharing your experiences with all of us looking for new knowledge as ‘Nutrients (like PEOs) are the natural Vaccine.’”

“I take Parental Essential Oils (PEOs) because they keep my weight constant and maximize both my mental and physical performance during training. I combine PEOs with Peskin’s recommended truly chelated minerals because these help improve my reflexes and speed up the response between brain and body.”
